EASURING SYSTEMS

UROMIC Melody is a small compact system for complete urodynamic examinations.

The unit is equipped with 5 measuring channels, an output for a profilometric puller and inbuilt cystometric pump.

UROMIC Melody enables wireless or USB connection with a laptop or standard PC.

Available accessories meet the high standards of the demanding clinical environment and enable easy handling during the examination.

UROMIC Melody unit can be mounted either on a table stand or on an infusion stand and easily moved into position and convenient for compact storage.

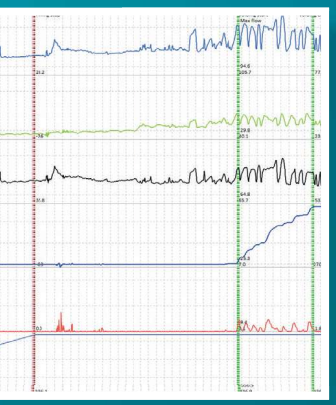

The infusion stand is specially designed for use with MMT urodynamics systems and includes a second pole to allow full range transducer adjustment as well as infusion bag hooks.

Accessories can be fixed
