MMT URODYNAMIC SYSTEMS ARE COMPATIBLE WITH A WIDE RANGE OF ACCESSORIES

UROFLOWMETRY

The waterproof flow meter allows easy cleaning and disinfection. The lithium battery provides inredible battery performance for a truly wireless experience. No need for daily charging.

Different types of stand for flow meters available - height adjustable, designed to fit underneath the commode chair. Easy to assemble folding version allows easy travelling and more flexibility.

Lightweight and easy to clean commode for seated voiding, suitable also for videourodynamics.

CYSTOMETRY

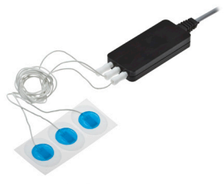

MMT cystometric pump and infusion weight ensure precise volume filling.

PROFILOMETRY

MMT unique magnetic puller with customisable speed and resterilisable catheter holder.

EMG / BIOFEEDBACK

EMG curve is smooth and precise thanks to an external preamplifier.

WIRELESS PATIENT UNIT

Portable, wireless UROMIC Harmony provides additional channels for use at the patient side, keeping cables out of the way.

3D BLADDER SCANNER*

The portable, intuitive, and accurate bladder scanner provides real-time PVR information. The PVR value is available in seconds and saved into test reports automatically.
